Our File No.: 800372-221698

This is a reminder that the deadline in which to Demand Chapter II in this matter is **October 16, 2015**.

We often recommend entering Chapter II as the process permits amendments to the entire application and the Patent Office conducts a more thorough examination of the application, subsequent to our amendments and any comments we may submit, which may assist in the issuance of patents in the National Patent Offices. It also affords one the opportunity to amend the application to address objections raised in the International Search Report. If you would like us to file a Demand for preliminary examination, please advise us no later than **September 16, 2015**, to provide us with sufficient time to complete and file the necessary paperwork.

We look forward to receiving your instructions in advance of the above-noted deadlines. In the meantime, if you have any questions or concerns regarding the above, please feel free to contact the undersigned.

Yours truly,

Keith Bird
