

Where Everything Comes Together!

AUDIO VISUAL

Display technology OEM's and the display market is most widely used in televisions, laptops, and desktops. Over the years display technology has made tremendous progress. Thin displays increase aesthetics and are finding their widespread use in many new products. OEM's are constantly challenged to be innovative in providing a variety of display products to the global market including televisions, desktop computers and laptops, personal digital assistants and many more. The thin display market can be segmented according to it's technology into LCD Display, Thin Film Transfer (TFT) , OLED (organic light emitting diode) and many others.

Call M.I.S. and be assured you have an EMS partner that understands the dynamics in the areas of digital video projection, analog/digital video conversion, video broadcast and smart display computing.

AUDIO VISUAL PRODUCTS INCLUDE:

- DLP® Digital Cinema Control Electronics
- Image Processors
- LCD Video Walls/Video Wall Controllers
- Touchscreens
- Satellite data Receivers, Set Top Boxes, Cable Modems
- High Speed Graphics Processing
- Digital/Analog Broadcast systems
- Smart Display & Computing
- Networks & Communication
- Video Processing & Distribution

TRUST YOUR PCB ASSEMBLY TO M.I.S.

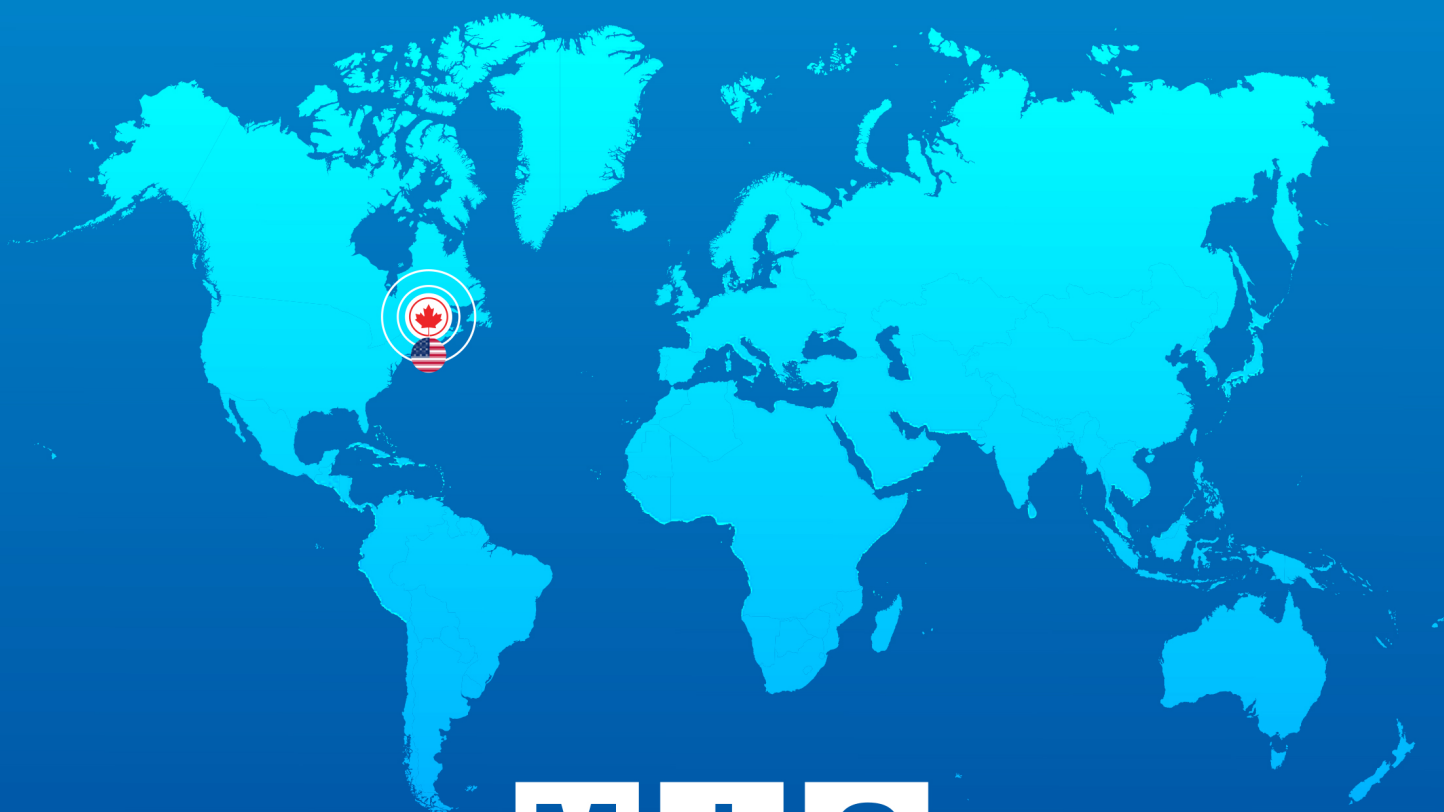

Full service contract manufacturer providing delivery, flexibility and responsiveness. M.I.S. provides high-quality components, advanced electronics assembly solutions, and superior customer service, with fully supported turnkey solutions

With over 30 years of design and manufacturing M.I.S. is a full turnkey high-mix, low to mid-volume contract manufacturer who prides themselves on providing OEM's high quality PCB assembly and electronic manufacturing. Our services include PCB system design & Board Layout, design for manufacturing, rapid prototyping and test & development services.

M.I.S. Electronics leads the industry with end-to-end custom PCB manufacturing. We are real people with a passion for electronics. If you're looking for a team of experts you can trust to reduce your operating costs

and deliver high-quality assembly, from custom PCB design to fast market-ready production, we're looking for you, too. We're excited to help you turn your concept into added revenue using the most advanced technology innovation and PCB machinery available today.

We are guided by extremely high manufacturing standards, backed by multi-stage quality control and customer care every step of the way. Our aim is to develop deep connections that lead to a lifetime partnership. So let's start an exciting conversation! We'll walk you through the process from idea to assembly to testing to delivery (all under one roof). Grow your business with a trusted North American resource that delivers long-lasting, affordable, turnkey solutions—at any volume,
